**Subject:** RE: I oppose Duke's latest rate hike for dirty energy

Dear Ms. Hodik,

This is to acknowledge receipt of your email to the Public Service Commission of South Carolina. I am forwarding your email to our Clerk's Office for processing. Your email will become a part of Docket No. 2013-59-E and will be posted on our website under this docket.

Please let me know if you should require any additional information.

Sincerely,

Deborah Easterling  
Administrative Assistant

Subject: I oppose Duke's latest rate hike for dirty energy

Apr 22, 2013

South Carolina Public Service Commission

Dear Public Service Commission,

When we moved to North Carolina in 2003 we happily agreed to add \$4 to each Duke Energy bill so that Duke Energy could use that extra money to make their energy producing plants less polluting. At the same time Progress Energy used extra money to actually do clean-up their energy production and accomplished a lot while Duke Energy seems to have used our extra contributions to hire more lawyers to defeat any environmental protection regulation. Duke has done next to nothing to make their energy producing plants less polluting and we have removed our \$4 extra contributions until they actually do something about the environmental pollution of their plants.

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

Barbara Hodik
